Welding Inconel®

Welding wire for Inconel 625, 600, 825 etc..

Inconel® is the registered trade name of Inco Alloys (today Special Metals) and covers a weight range of well known Nickel based alloys, for example: Inconel 625, Inconel 600, Inconel 825, Inconel 82, Inconel 112, Inconel 617, Inconel 601 and many others. Nickel alloys are weightily used in aerospace, nuclear and chemical industry but also finds applications in waste ovens to withstand high temperatures combined with burning gasses.
